

MODEKA
WE RIDE

2025

Welcome to Modeka

Dear Motorcycle Enthusiasts and Partners,

We are very pleased to welcome you to our brand-new catalog.

In this edition, we invite you to dive deeper into the world of Modeka. Discover not only our diverse product range but also learn more about the values and history of our brand, which have made us what we are today.

For the 2025 collection, we have developed exciting new products, including an Adventure/Touring series with innovative fabrics and colors that will enhance your enthusiasm for riding both on the road and off-road. These products offer not only high comfort and flexible adjustment options but also a modern, technically sophisticated design.

Another highlight in the urban segment is our first CE AAA-certified motorcycle jeans, perfectly combining safety and style.

In addition to other innovative products, we have expanded the current collection for 2025 to include additional sizes, further emphasizing our focus on fit and individuality.

We want this catalog to be more than just a product list. It is meant to inspire and inform you. For additional details, more detailed images, and exclusive video material, please visit our website. There you will always find the latest content to enrich your experience.

Thank you for choosing Modeka. We hope you enjoy browsing through this catalog as much as we enjoyed creating it.

Wishing you a great ride,
The Modeka Family!

Christi Ischerer
Loren Winder
Andreas Oberhuber

Peter Hübner

Modeka represents a family business that operates with a special focus on the community of motorcycling. With our message Modeka We Ride, we address our customers directly. We Ride embodies what we all share: the joy of motorcycling.

Our Journey

From local manufacture to global brand

It all began in a small Westphalian town on a large factory yard, where clothing experts and war wounded manufactured leather clothing. In addition to fashionable products, protective equipment for police and military was produced. Motorcycle clothing quickly came into focus, the first „Belmo“ leather suits and jackets became popular rapidly.

With the subsequent introduction of the brand Modeka, the range for motorcyclists expanded significantly. Textile clothing became a central element and is now indispensable. Over the years, we have continuously worked on technology, functionality, and design, always with the aim of exceeding the expectations of our customers.

milestones

1946

Establishment and development of a tannery producing leather and fur products

1952

What Defines Us

Our brand philosophy

Making safety affordable

Our philosophy is to offer high-quality products at a fair price. We strive to understand the needs of motorcyclists and develop high-quality items that are affordable. Our team works hard to design each product with care and attention to detail, ensuring that you always receive the best possible value for your money.

Comfort and fit for everyone

We know that bodies are different, just like the machines, goals, climates, and personal preferences. That's why we place great importance on an exemplary size range that ensures an optimal fit.

79 years of know-how

Our extensive experience in the motorcycle industry gives us comprehensive expertise and a deep understanding of the market.

A comprehensive collection for women

The majority of our Modeka team consists of women, which explains our special interest in women's clothing. We place great emphasis on producing well-fitting clothing, and it brings us a lot of joy to create designs specifically for women.

We develop with a customer-centric approach

We listen closely to your feedback and incorporate it into our product optimization as well as into new development processes. This ensures that our products not only meet the highest safety standards but also perform excellently in practice. For specific projects, we collaborate directly with test riders to create innovative and functional apparel that meets the needs and desires of motorcyclists optimally.

Moodboards are helpful for visually presenting the concept of a product idea. First, we define the product's scope and thus the target audience.

Design & Development

An intensive work process

Function and aesthetics combined: Our development path for motorcycle clothing

Our product development for motorbike clothing follows a structured and careful process. This begins with a thorough market and needs analysis to understand the requirements and wishes of motorcyclists. Our designers then work on the first drafts, taking into account both functionality and aesthetics. These designs are further developed in close co-operation with garment technicians on site and in the production facilities to ensure that the garments meet the highest quality and safety standards. Prototypes are extensively tested and optimised accordingly before the final products go into production.

The certification of our collection is an integral part of our development process. Each product is tested by a European certification institute for many technical safety aspects before production begins. You can find the so-called Declaration of Conformity for each product on our website.

Your Path into the Unknown

Adventure is the search for new paths, immersing oneself in nature, and overcoming challenges. With every kilometer you travel, you feel the adrenaline and freedom. It's about discovering the world off the beaten path, whether through deserts, forests, or mountains. Every route is a new challenge, every landscape a new experience. Adventure is the perfect combination of thrill and nature. Experience the untamed beauty of the world and the joy of finding your own way.

ADVENTURE

DNA: Adventure

- Field of Application**
- Different Types of Roads and Terrain
- Designed for**
- Long Adventure Trips, Versatile Climate Zones

Example Panamericana II

Protection That Inspires Confidence

Our Adventure collection has been designed to withstand the daily demands of expedition travel. For comprehensive protection, we collaborate with renowned partners such as SAS-TEC® for protectors, YKK zippers, Sympatex® membranes, as well as Cordura® and DuPont™ Kevlar® inserts in heavily stressed areas. All products are certified as Personal Protective Equipment (PPE) by independent institutes.

Comfort on Long Journeys

Comfort is a must on long rides. That's why our Adventure products feature an advanced ventilation system that allows you to control airflow, avoiding overheating on demanding journeys. Each suit in our Adventure line is unique and distinguished by individual ventilation concepts.

Adaptability for Any Challenge

Our Adventure Collection has been developed for various climate zones. The focus of the Adventure line is on the innovative 3-in-1 concept, which offers you the necessary flexibility, whether on hot summer days or in rain and cold. In addition, we offer waterproof laminate suits that provide reliable protection against rain and wind. Each Adventure jacket includes, regardless of the layering system, a quilted midlayer jacket that provides insulation and can also be worn separately.

TALISMEN

MOTORRAD
Urteil: sehr gut

MOTORRAD SEHR GUT (08/2022)

„The Talisman is visually discrete, but convincing all along the line. This Modeka combination offers many large pockets, nice extras, very good ventilation and becomes a cozy warm protective cover when needed.“

MOTORRAD & REISEN GUT (101/2021)

„One of the most elaborate and comfortable suits we have ever tested“.

1000 PS (23.01.2023)

„For a 3in1 textile suit, however, Modeka's Panamericana 2 performs almost perfectly and is suitable, practical and comfortable clothing for all motorcycle tourers out there. The features are practical, the workmanship is good, the rides with the suit are pleasant and the range of use is wide. It is also positive to note that the Panamericana 2 combo is also available in women's cut and offers the same features than the men's model. This is unfortunately not self-evident with regard to other brands and models.“

TOURENFAHRER EMPFEHLUNG (7/2022)

„The combination of extremely supple Tactel with sufficiently dimensioned, abrasion-resistant Cordura zones makes the Panamericana a real feel-good suit. Thanks to the magnetic solution for the ventilation flaps, the changeover to changing climate zones works quickly and effectively. [...] Overall, the air exchange in convertible mode works very well.“

MOTORRAD ABENTEUER (6/2023)

„A functional travel suit, available in many sizes, scores points with high wearing comfort and good ventilation.“

When Less is More. The Suit for Smart Explorers.

PANEO LT

This smart 3-layer laminate suit offers everything you need for your next great adventure. Thanks to its lightweight construction, you will experience maximum comfort as you ride through breathtaking landscapes and enjoy the freedom of motorcycling. The Paneo LT impresses with its innovative laminate technology, where the waterproof membrane is directly bonded to the outer material. This keeps the suit exceptionally lightweight while providing outstanding protection against rain and wind. Not a drop penetrates between the layers, ensuring quick drying and lasting weather resistance. The excellent ventilation of the Paneo LT ensures that you stay comfortably cool even in intense heat, allowing you to fully immerse yourself in your adventure. Whether in bright sunshine or unexpected rain – the Paneo LT reliably protects you and gives you the freedom to embrace every challenge. Experience unforgettable moments with the Paneo LT.

AFT AIR

MOTORRAD SEHR GUT & KAUF Tipp (04/2022)

„Great safety features, good fit and maximum mobility are what set the AFT Air apart. It has mesh areas instead of ventilation zips, the climate is regulated with the choice of inner jackets.“

1000 PS (19.04.2021)

„After 2 months in the test, the AFT AIR suit from Modeka could already convince all along the line as a great all-rounder. Depending on the configuration with or without inner lining, it offers a lot of comfort and can be adapted well to one's own body thanks to its adjustment options.“

The Feeling of Endless Freedom

Imagine embarking on a new destination, the hum of your engine beneath you, the road stretching ahead. Touring is more than just riding – it's the sensation of freedom that envelops you as you explore the world on two wheels. It's the anticipation of the unknown and the spirit of adventure that propels you forward. Whether through picturesque villages, along breathtaking coastal roads, or across challenging mountain passes, the touring experience connects you with your motorcycle and the open road. Touring means exploring the world at your own pace, discovering new horizons, and collecting unforgettable memories. It's the joy of the journey itself, the adventure that makes every mile special. Let the road lead you and experience the unparalleled feeling of touring.

TOURING

DNA: Touring

Field of Application	Asphalt Roads
Designed for	Short and Long Distance Rides, Different Weather Conditions

As Versatile as You

The demands of touring riders vary, so our Touring Collection offers a comprehensive selection of different equipment options, from entry-level to long-distance riders, as well as from 3-in-1 all-season products to pure summer pieces.

Close-Fitting Fit

At Modeka, we place great emphasis on a comfortable fit specifically designed for long-distance rides. Stretch areas and articulated joints ensure comfort even after hours of motorcycle riding. Our jackets with a shortened front length are highly popular because they don't ride up while sitting and fit optimally in the riding position.

Weather Solutions for Your Needs

To meet individual needs, we rely on various equipment concepts. Therefore, our Touring Range includes 3-in-1 products for year-round use as well as lighter 2-in-1 items. In both concepts, waterproof climate membranes are integrated or removable. The removable membrane makes the product extremely versatile and prepared for all weather conditions. For particularly hot days, we recommend our mesh suits, which are excellent for the most popular riding season.

Revolutionary Multifunctionality

HYDRON

Based on the idea of multifunctionality, this high-quality touring companion convinces demanding riders in three of four seasons with its modern Hydroflex membrane. Wear the rain layer flexibly under or over the suit and redefine your adventure on two wheels. Experience unparalleled comfort and exceptional performance, supported by extensive ventilation that keeps you cool and comfortable even on long rides. The ergonomically thought-out material combinations ensure optimal freedom of movement, allowing you to master any challenge.

Conquer Every Climate: The Lucano 3-in-1 Touring Suit

LUCANO

The Lucano 3-in-1 Touring Suit is designed for year-round use, offering optimal protection and comfort for your rides. Regardless of the climatic conditions – whether warm summer weather or harsh winter cold – Lucano adapts perfectly to your needs. The suit stands out with its modern ripstop material, which is both robust and durable, providing excellent tactile quality. This design makes Lucano the ideal companion for adventurous tour riders who travel both on paved roads and off the beaten path. With the Lucano Touring Suit, you can conquer any climate and enjoy unforgettable rides.

The Perfect Companion for Adventures from Spring to Autumn

KHAO AIR II

This 2-in-1 suit is the ideal choice for anyone who values the highest comfort on every ride from spring to autumn. The short jacket of this touring suit provides additional comfort and freedom of movement, making it particularly suitable for long and varied tours. Made from soft polyamide and equipped with generous mesh inserts, the Khao Air II offers excellent air circulation that keeps you pleasantly cool even on hot days. A special feature of the Khao Air II is its color design in a sandy hue, giving it a distinctive adventure look and making it a real eye-catcher. With the Khao Air II suit, you are perfectly equipped to master any challenge in temperatures above 15°C.

Unleash Your Strength

Touring Ladies

Our range of women's touring models is incredibly diverse and has been specially designed with a focus on female ergonomics. Each model combines comfort, style, and performance in an ideal way to empower female motorcyclists. By using robust, pleasant materials and the targeted placement of functional details, each element has been carefully coordinated to make long rides a pleasure. At Modeka, all women's products are developed exclusively by women, celebrating the strength, resilience, and spirit of female riders. Embrace your power and conquer every journey with confidence and style.

The Pursuit of Speed

The heart beats faster, the pulse rises – that's the thrill of sports on two wheels. It's more than just speed; it's the pure passion and excitement that drive you. Every curve, every straightaway is a new adrenaline experience. Sport means pushing the limits and maximizing the performance of your motorcycle. It's the feeling of control and speed that keeps drawing you back to the road. You and your machine, one with the road, in perfect harmony.

SPORT

DNA: Sport

Field of Application	Country Road, Race Track
Designed for	High Speeds, Extreme Driving Conditions

Maximum Safety at High Speeds

Our sportswear demonstrates a maximum commitment to your safety. Our leather suits meet the strictest safety standards and are certified with the highest protection level CE AAA. They excel in exceptional abrasion resistance and excellent impact protection. In addition to Level 2 joint protectors from the German brand SAS-TEC®, shoulder and elbow caps provide the sporty edge.

Praised by the Specialist Press

The leather suits Yron and Valyant have been rated as GOOD in various motorcycle magazines. The testers praised the perfect cut of both suits. In one magazine, it was even mentioned that it „almost feels like a well-fitting tracksuit“ (Motorrad 12/2024).

Aerodynamic Comfort

At high driving speeds, the aerodynamic design of clothing is crucial. Our specially designed sport jackets and trousers are tailored to snugly fit the body, eliminating fluttering at high speeds. With ergonomically optimized designs, pre-shaped sleeves and knee areas, as well as sufficient stretch zones, we offer maximum comfort in the riding position.

Dynamic Through City Traffic

The city pulses, life is dynamic – and you're right in the midst of it. Urban Sport is the perfect blend of style and functionality for urban living. It's about moving quickly and safely through city traffic without sacrificing style. Commute to work, to university, or meet up with friends – Urban Sport turns every ride into an experience. It's the freedom to be mobile while always looking good.

URBAN SPORT

Sporty Everyday Loks

Our Urban Sportswear stands out with a casual-sporty everyday design reminiscent of streetwear. We place special emphasis on the use of softshell material, which enhances the urban look with its outdoor character. Each piece of our Urban Sport collection comes with a hood to add an additional sporty-casual touch to the jackets.

Inconspicuous Protection

Our main focus with the Urban Sport collection is to design motorcycle clothing that reflects the look and comfort of casual sportswear in everyday life, without compromising on the protective elements of a motorcycle jacket. Therefore, the „protection“ is hardly visible, making the jackets an attractive option even off the motorcycle.

Tradition Meets Passion

Here we celebrate the timeless beauty and craftsmanship that endures through generations. For all those who feel the stories of days gone by and want to experience the freedom of the road in its purest form. In every detail of our collection lies the soul of motorcycling, a passion that never fades and always lives on. Let yourself be inspired by tradition and join us in writing the next chapters of this everlasting story.

HERITAGE

DNA: Heritage

Field of Application Classic City Rides, Everyday Life

Designed for Stylish Rides, Short Trips, Everyday Routes

Example Bad Eddie

Relaxed, Authentic Styles

The Heritage clothing by Modeka brings the casual biker look to the streets. It combines timeless design with modern safety standards, offering the perfect mix of style and functionality. With details like quilted shoulder panels, vintage metal zippers, and high-quality snap fasteners, our collection captures the spirit of traditional motorcycle culture. Our focus on timeless design ensures that you'll wear this clothing for a long time and with pleasure.

Characterful: Leather

Leather that develops a natural patina over time gives the jacket a distinctive uniqueness. Our selection includes sturdy leather in matte or glossy finishes as well as models with a vintage look. The strength and durability of the leather provide optimal protection and comfort. Ventilation concepts such as perforated leather and concealed ventilation zippers ensure pleasant air circulation.

Functional Classics

Classic design meets powerful functionality: Our Heritage textile jackets provide you with optimal weather protection and timeless style. Authentic wax jackets and shorter blouson jackets feature removable membranes and excellent ventilation options via zipper. Our Heritage line also includes casual motorcycle shirts with abrasion-resistant aramid inlays that can be seamlessly integrated into everyday life.

Casual Looks with Hidden Armor

Motorcycle Shirts

Motorcycle shirts combine casual, everyday design with functional safety features to offer an optimal balance of comfort and protection for urban motorcyclists. Made from smooth materials, they include protectors and aramid inserts for high abrasion resistance, without compromising the relaxed look of a classic shirt. These shirts are ideal for bikers who want to look good off the bike as well. They effortlessly integrate into daily life, providing the necessary safety on two wheels without compromising on style and comfort. With a motorcycle shirt, you are well-equipped for your next ride through the city or a relaxed trip to the countryside.

Ease and Freedom United

Jeans are an integral part of our everyday lives, and with Modeka, they bring a new dimension to motorcycling. It's the perfect combination of casual style and functional safety. Every ride becomes an expression of your personality and freedom. Jeans mean you don't have to choose between style and safety. It's the freedom to look and feel as usual every day while being optimally protected. Every ride, whether through the city or on open roads, becomes an experience. Experience the perfect blend of comfort and protection with Modeka Jeans - for every day and every ride.

JEANS

DNA: Jeans

Field of Application Classic City Rides, Everyday Life

Designed for Casual Look, Daily Use

Example Finn Mono, Monolayer

Inconspicuous Protection

Our motorcycle jeans combine the comfort of everyday clothing with the safety of motorcycle gear. They meet CE standards for personal protective equipment and boast a casual design. The use of high-quality materials such as cotton, Cordura®, and DuPont™ KEVLAR® ensures comfort as well as durability and protection. Our pants are equipped with flexible, flat protectors rated at levels 1 and 2 for knees and hips, providing invisible protection, following our Fit and Forget™ principle.

The First Step into Sustainability

Our goal is to achieve a responsible and sustainable production of jeans. Currently, renewable energy sources already cover 60% of the energy demand in our jeans production. During the manufacturing process, approximately 130 liters of water are required for washing processes. Our aim is to significantly reduce this consumption in the future. We are aware that this is only a first step towards a more sustainable production. Our ambition is to embed the ecological aspect in our production processes in the long term.

Glove Up and Ride

Riding a motorcycle is more than just a hobby - it's a passion that makes you feel free and alive. Your hands play a crucial role in this, as they connect you directly to your motorcycle. Our motorcycle gloves not only provide you with the necessary protection, but also the feeling of control and security you need on every ride. Feel the perfect combination of comfort and protection that allows you to enjoy every adventure safely.

GLOVES

DNA: Gloves

Example Air Ride II

- Perforated Leather
- Knuckle Padded with Temperfoam®
- Leather Stretch
- Mesh Inserts on Fingers
- Textile Stretch Between the Fingers

Perfect Grip and Control

Our motorcycle gloves are designed to provide you with the necessary grip and secure control over your motorcycle. High-quality materials and carefully thought-out designs ensure that your hands do not tire even during longer rides. The non-slip inner surfaces and ergonomic cuts guarantee that you can steer safely and precisely at all times.

Protection at the Highest Level

Safety is our top priority. Our certified gloves are equipped with shock-absorbing knuckle protectors to optimally protect your hands in the event of a fall. Reinforced palms and abrasion-resistant materials provide additional protection while ensuring high freedom of movement.

Comfort for Every Season

Whether it's hot summer days or cold winter rides, we have the perfect glove for every weather condition. Breathable fabrics and ventilated designs provide pleasant cooling in summer, while insulated and waterproof models keep your hands warm and dry in winter. Enjoy the comfort tailored specifically to the needs of motorcyclists, and experience every ride to the fullest.

- Touch Tip on The Index Finger
- Perforated Leather
- Touch Tip on The Thumb
- Non-slip Grip Material
- Padding on The Palm
- Covered Velcro Fastener

Ladies DS - DXL

Kickstart Your Journey

Your feet carry you through every adventure, they are your foundation on every ride. With our motorcycle boots and shoes, you experience the feeling of unwavering security and maximum comfort. Whether you're cruising through the city or embarking on a long tour – our shoes provide you with the protection and stability you need to tackle every route with confidence.

BOOTS

DNA: Boots

Protection and Stability

Our motorcycle shoes are equipped with reinforced toe and heel caps as well as ankle protectors to provide optimal protection for your feet in the event of a crash. Robust, abrasion-resistant materials and non-slip soles ensure additional safety and stability, no matter how demanding the terrain.

Comfort Concept

Nothing is worse than uncomfortable shoes on long rides. Ergonomic fits and breathable materials ensure that your feet stay fresh and comfortable even after long rides.

Weather Resistance

Are you riding in the rain or battling the heat? Motorcycle boots need to withstand all weather conditions. Our waterproof boots keep your feet dry, so you're always well-prepared, no matter what the weather brings. Our shoe collection also includes perforated or mesh-panel shoes to be well-equipped for the summer.

ADDITIONALS

Essential Must-Haves for Every Ride

214 Motorcycle Rain Gear

Stay dry and protected with our high-quality, waterproof rain gear that offers you freedom of movement and comfort in wet weather.

210 High-Visibility Vests

Increase your visibility and safety with our reflective vests, which ensure you are clearly visible in all lighting conditions.

212 Bodywear & BalACLavas

Our breathable functional underwear keeps you dry and comfortable, whether in heat or cold, ensuring maximum wearing comfort.

216 Kidney Belts

Protect your kidneys and lower back from cold and shocks with our stabilizing and warming kidney belts.

209 Joint Protectors

Upgrade yourself with the intelligent 3D SAS-TEC® protectors made of viscoelastic soft foam for shoulders, elbows, chest, hips, and knees.

219 Care & Glasses

Well-maintained motorcycle gear and high-quality glasses for clear vision ensure a safe and comfortable riding experience.

217 Luggage

Take your utensils on the next trip without sacrificing comfort and style.

208 Back Protectors

Innovative, lightweight SAS-TEC® protectors made of viscoelastic soft foam protect your back with excellent impact absorption values (Level 2).
